

Valley International Airport

Harlingen is home to Valley International Airport (HRL). The airport encompasses more than 2,300 acres of land, and more than 800,000 passengers walk through its' terminal every year. It is home of the NAFTA Air Cargo Port for the Rio Grande Valley.

The airport offers 3 runways and the capability for simultaneous commercial landing and take-off operations. Runway 17R is equipped with ILS (CAT I) and is the longest runway in the Valley at 8,300 feet.

The Rio Grande Valley covers a region 90 miles long by 60 miles wide on the southern tip of the state of Texas along the Gulf of Mexico and the border with Mexico, all connected with Interstate quality highways 83/77 intersecting in Harlingen. The region is home to 3.5 million on both sides of the border. By the year 2040, the population is expected to double to seven million, all within a 35 minute drive of the airport
